

Mobility Axiom — Quick Guide

What you need on this PC

Item	Required?	Notes
Windows 10/11 (64-bit)	Yes	Administrator rights for Docker
Node.js	No	Included in <code>Mobility-Axiom\tools\node\</code>
Docker Desktop	Yes (VC only)	Download
Internet	First install only	Docker image pull for Video Conference

Install (once)

1. **Unzip** the full delivery folder (e.g. to `C:\Mobility-Trial\`).
2. **Install Docker Desktop** from the link above. Start Docker — wait until the whale icon is steady.
3. Double-click `Install-Mobility.bat` (in the pack root, same folder as this README).
 - Verifies bundled Node + libraries
 - Creates `.env` with your LAN IP
 - Starts LiveKit (Video Conference engine)
4. Double-click `Start Mobility.bat` every time you use Mobility.
 - Opens the dashboard in your browser

Do not run `npm install` — dependencies are pre-built in the pack.

Folder layout (after unzip)

Path	Purpose
<code>Install-Mobility.bat</code>	Run once after unzip
<code>Start Mobility.bat</code>	Start server + open browser
<code>Mobility-Axiom\</code>	Application (do not delete)
<code>Mobility-Axiom\tools\node\</code>	Bundled Node.js 20
<code>MobilityConference-1.5.6.apk</code>	Android Video Conference app

Path	Purpose
manuals\	Guides in your language

First login

Field	Value
URL	http://:3888
Username	global
Password	global123

Change password: **Settings** → **Server Config** → **My account** → **Update password**.

BWC online (short)

1. **Settings** → **Server Config** → **Network** — set server IPv4 → **Save server settings**.
2. **Settings** → **Server Config** → **BWCs** — add Device ID + officer name → **Save BWC list**.
3. On each BWC SIP screen — enter values from **Type on BWC** (IPv4 only).
4. Wait ~30s — device shows **Online** in fleet list.

Video Conference (phone)

1. Install **MobilityConference-1.5.6.apk** on Android.
2. Server URL = same as dashboard (http://:3888).
3. Sign in → open room → Join with camera.

Trial license

5 BWC · 10 dashboard users · 1 year.

Full steps: **Configuration Manual** in your language folder.
